

I benefit from listening to XM Satellite Radio and its instant traffic and weather channels because I travel a lot and I need to know how the weather is in every city and no one else provides the variety and quality. I pay for these services and it shouldn't be up to the National Association of Broadcasters to dictate what I'm permitted to hear. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve.
